REMARKS

The Action states that restriction to one of the following inventions is required:

Invention I. Claims 21-36 drawn to a method, classified in class 438 subclass 214;
and

Invention II. Claims 1-20 drawn to a device, classified in class 257, subclass 276.

In response, Applicants elect Invention II, corresponding to Claims 1-20.

Applicants agree that unpatentability of Invention I, which corresponds to Claims 21-36, would not necessarily imply unpatentability of Invention II. Accordingly, Applicants are making this election without traverse, and have canceled Claims 21-36 without prejudice or disclaimer.

In view of the above, Applicant respectfully requests allowance of Claims 1-20. If any extension of time for the accompanying response or submission is required, Applicants request that this be considered a petition therefor. The Commissioner is hereby authorized to charge any additional fee that may be required or credit any refund to our Deposit Account No. 50-0220.

Respectfully submitted,
